Neurology Lecture

Dr. Eduardo Tolosa:
The Prodroms (early warnings) of Parkinson’s Disease

Eduardo Tolosa, MD, PhD is a renowned researcher and expert on advances in the field of Parkinson’s disease and movement disorders. He recently received the prestigious "Movements Disorders Research Award" from the American Academy of Neurology (AAN) for his research career in premotor phase Parkinson and his understanding, treatment and prevention of movement disorders.

Dr. Tolosa earned his MD degree from the University of Barcelona, Spain, and obtained his neurological training at the University of Minnesota Hospital in Minneapolis. He was visiting scientist at Brookhaven National Hospital, and subsequently joined the faculty of the Department of Neurology at the University of Minnesota. He was later appointed chief of Neurology at the University Hospital in Barcelona in 1982.

Dr. Tolosa was certified as a neurologist by the American Board of Neurology and Psychiatry in 1976 and became a fellow in 1997. He is a fellow of the American Academy of Neurology, the American Neurological Association and the Royal College of Physicians, and a founding member of the Movement Disorder Society (MDS). He has been president of the MDS and president of the European Neurological Society. Prof. Tolosa is an honorary member of several neurological societies, including the British Neurological Association and the French Neurological Society.

Presentation Details:

Dr. Tolosa will present an overview of emerging knowledge of earlier symptoms of PD, with a focus on the following areas:

1. When and where does Parkinson’s disease start?
2. The concept that Parkinson’s disease is not only a brain disease but rather a multiorgan disorder
3. How patients present to the doctor in the premotor phase

There will be time for questions & answers and general discussion following the presentation.

This lecture is for members of the Parkinson community and interested health professionals. It will be presented in Saskatoon, and broadcast via Telehealth throughout the province. It will be videotaped.

We would like to express our gratitude to Drs. Rajput for arranging this presentation for the Parkinson community.

Thursday October 1st, 2015 at 4:30 pm

Broadcasted live over Telehealth from
St. Paul’s Hospital Auditorium (Pylypchuk Hall)

To attend by Telehealth in your community, please register with your local Telehealth coordinator before September 25, 2015.
